At the starting of pre-bid meeting representative of firm has explained the detailed scope of work and raised some issue and query which are mentioned below: -

S.No.	Name of Firm	Bidding Document Reference(s) (Clause number/page)	Content of RFP requiring clarification	Point of Clarification required	Response by RSSC Amendment If any
1	Go Bananas	C. Eligibility Criteria Page 9	The Bidder should have experience of preparation & Management of GMS Portal, Event Management, Accommodation, Catering & transportation services and ACT management in state/national or international sports event of Central/State govt in india within the last 5 years One Order/ contract of 10 crore/ Two crore of 7 crore.	The scope of work for large-scale sports events involves a wide range of specialized services, including the preparation and management of the GMS portal, event management accommodation, catering, transportation, and ACT management. Given the complexity and scale of such events, these responsibilities are often divided into separate tender or tie-ups to ensure efficiency and expertise in each domain, delivering better output at the same time. However, this segmentation presents significant challenges in execution. In The National Games, Too, the work has been separated among different agencies, each specializing in a specific area to maximize the output and ensure the smooth execution of the sports event.	As Per revised RFP
		Legal Entity Page no 9	The Bidder must be a single Business entity (JV/JVC Not allowed)	By allowing tie up with ACE agencies with complementary strengths in each of these areas (GMS Portal management, Accommodation, Event Services) can collaborate and offer a more robust and effective solution. This would also ensure that the event management services meet the highest standards while maintaining the necessary quality across all sectors.	No Changes

To ensure smooth and timely clearance of payments, we kindly request a revision of the clause as follows. Based on our previous experience managing events of this stature, we have observed that timely payments are critical, to ensure no hindrance in operations. Additionally, for the opening ceremony, we will be coordinating with multiple vendors (such as branding, manpower, overlays, etc.), which further necessitates a streamlined payment process. Games of this scale requires substantial payments to be made upfront to ensure smooth conduct of the games. Advances are necessary as a huge number of local and other manpower need to be paid to block their services.
